

# BRUSHES, HAND

## SHELLAC BRUSH

Bristle brush used for applying adhesives. Oval ferrule gives more body — has greater capacity than flat type.

No.	Width at base of ferrule	Trim
2A	1/2"	1 5/8"
4A	3/4"	1 3/4"
6A	7/8"	2"
8A	1 1/8"	2 1/4"

## FILLING BRUSH

Small round-faced brush with stiff bristle for filling imperfections with melted wax on composition or leather heels. Also used in shipping room for marking cases. Length, 11 inches.

No.	Width at base of ferrule	Trim
2	1/8"	3/4"
4	3/16"	3/4"

## LINING BRUSH

Long handle with flexible bristles for pasting linings, sock linings and heel pads. Length, all sizes, 12 inches.

No.	Width at base of ferrule	Trim
1/2	1/2"	1 5/16"
3/4	3/4"	1 7/16"
1	1"	1 7/16"

## SOCK LINING BRUSH

Long handle with flexible bristles or Nylon. Brad in end for positioning sock linings in toe of shoe without soiling. Length, all sizes, 12 inches.

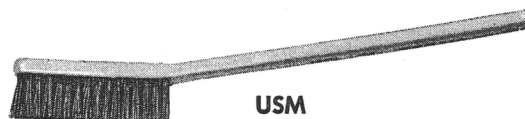

No.	Width at base of ferrule	Material	Trim
3/4	3/4"	Bristle	1 3/16"
1	1"	Bristle	1 7/16"
1BN	1"	Black Nylon	1 7/16"
8	1"	Bristle	2 1/4"
8BN	1"	Black Nylon	2 1/4"

## INKING BRUSHES

Curved wood handle bristle brush. Small compact knots. Stapled construction.

No.	No. of Rows	Width of Face	Trim
998-4	4	1/2"	1 1/16"
998-5	5	5/8"	1 1/16"

USM

Toothbrush type with straight or offset handles for inking edges, heels and wetting channels. Stiff grey horsehair. Stapled construction.

No.	No. of Rows	Width of Face	Trim	Handle
FU 606-3R	3	1/4"	1/2"	Wood
FU 606-4R	4	3/8"	1/2"	Wood
USM Plastic	4	3/8"	1/2"	Plastic offset

## EDGE INKING BRUSHES

Full knots of selected black horsehair. Durable straight or curved wood handles.

### STRAIGHT HANDLE
