

tungsten carbide coated wheels

edge trimmers PCI has edge trimming wheels (cutters) for all commercially available machines. Made with our exclusive regritable tungsten carbide coating for cool running and extra long wear. We have a wide variety available (below standard shapes in stock) or we can custom make any shape to your specifications. They are available in smooth face and fluted design in a wide range of grit sizes for use on most shoemaking materials. We can incorporate almost any edge feature into these wheels to meet today's fashion requirements. We have new replacement cutters or can strip and regrit your used cutters. As with all PCI carbide coated products, our special coating minimizes the "loading" of the abrasive surface.

Type Number	Diameter	Height or Width	Arbor	Radius	Standard Profiles
HETW-11	2"	1 $\frac{1}{4}$ "	3/4"	1/4"	
HETW-12	2"	1 $\frac{1}{4}$ "	3/4"	5/32"	
HETW-13	2"	1 $\frac{1}{4}$ "	3/4"	1/8"	
HETW-14	2"	1 $\frac{1}{4}$ "	3/4"	1/16"	
HETW-15	2"	1 $\frac{1}{4}$ "	3/4"	1/32"	
HETW-16	2"	1 $\frac{1}{2}$ "	3/4"	Flat	

Shields available for all of above cutters.
Height or width available up to 2".
